

The Company

JIGA LED is a leading manufacturer of Energy Efficient LED Based Lighting Fixture & System based at Delhi is a group company of Hajare sales Pvt Ltd. In a fast growing country like India, the need for energy is ever-increasing and as a nation, there is a huge unfulfilled demand for energy. This unfulfilled demand hampers industrial growth and economic progress as is a big impediment in the path of realizing our full potential. Total demand for electricity in India is expected to cross 9,50,000 MW by 2030. Setting up new power plants to fulfill this demand inevitably depends upon import of highly volatile fossil fuels. Lighting alone in India consumes 18% of the total power generated. Changes in consumption patterns can lead to saving energy and better & efficient utilization of the same. **We know that 1 MW save equals to 2 MW generated.** This scenario shows us that efficient utilization of energy is the only intelligent solution.

Keeping in mind Vision for India, **उर्जा की बचत ही उर्जा का उत्पादन है** Mr. Atul Goyal, founder Director has introduced the LED INDOOR & OUTDOOR LIGHTING under the Brand Name. JIGA ,We also known for best quality house WIRES/MCB/SWITCH GEARS/FANS

Products are developed keeping in mind longer horizons for Consumer that each product can be seen as a Direct Replacement of Conventional Lighting Product with same Light Output, Saving Considerable Energy & getting the benefit of Improved Light Quality. Behind JIGA LED stands the R&D & the Stringent Quality check at every stage of manufacturing. These activities are supported by group of dedicated Engineers. JIGA LED has created IN HOUSE capabilities' beginning from Driver manufacturing to complete range of products. JIGA believes "Quality is not only a fact - it's a Habit"

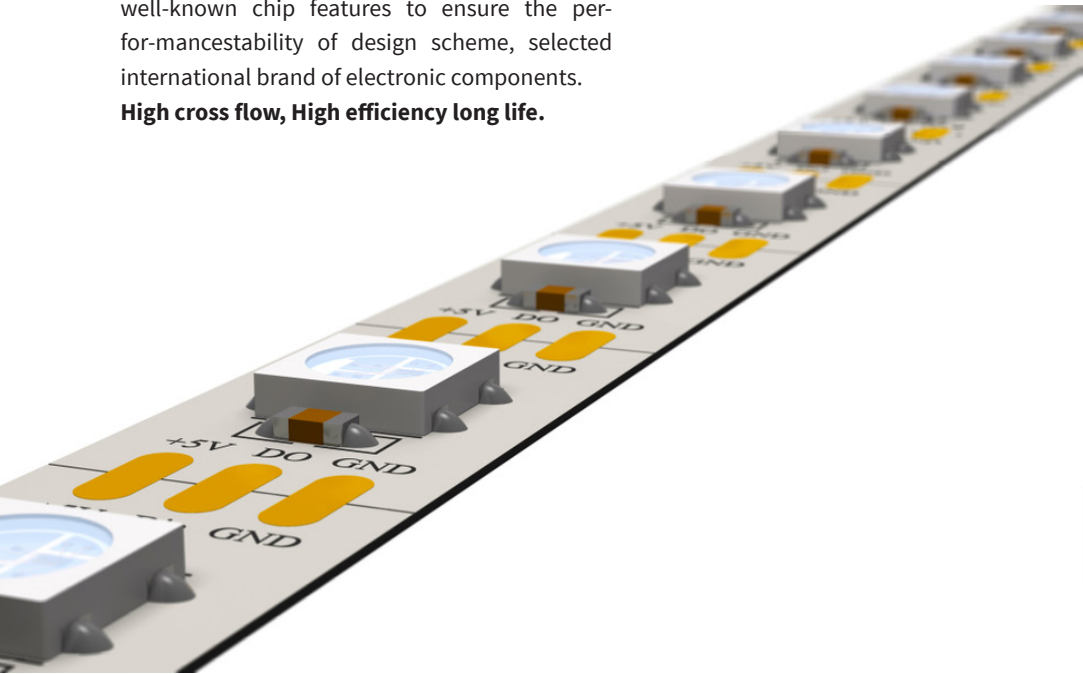

JIGA lighting products used the world famous brand chip, com-bined with the age top technology, makes the LED lamps come JIGA lamps product uses that high photosynthetic efficiency LED chip which is wellk-nown brand, to ensure quality assurance. CRI>85 Long Life upto - 50000 hrs.

Smart LED SMD Stable performance : reliable driving stability design Power effect size in drive design, current and voltage whether is stable or not, would directly affect the working performance and service life of the LED lams and lanterns. JIGA lighting products .

Smart Driver which combined with well-known chip features to ensure the per-for-mancestability of design scheme, selected international brand of electronic components.

High cross flow, High efficiency long life.
